

VICTOR VERNILLI

Senior Product Designer

Based in Lisbon, Portugal 🇵🇹

 vernilli.com  linkedin.com/in/vernilli  victor.vernilli@gmail.com

PROFILE Brazilian 🇧🇷 / Portuguese 🇵🇹

Senior Product Designer with 8+ years of experience designing internal and customer-facing digital products across mobility, travel, education, and advertising. End-to-end, hands-on designer with a computer science background, strong in user research, interaction design, prototyping, data visualization, analytics, and front-end collaboration. Experienced in partnering with Product, Engineering, and stakeholders to shape strategy, simplify complex workflows, and deliver user-centered solutions.

EXPERIENCE

Product Designer @ Volkswagen Group Digital Solutions

Lisbon, Portugal 🇵🇹 November 2021 – Present

- Co-led the Product Designer hiring process across VWGDS, partnering with Managers, HR, and People Business Partners (PBPs) to evaluate candidates and support hiring decisions.
- Co-created a company-wide Product Designer competency matrix to define skills, role expectations, and level differentiation across the organization.
- **Connect Pro (Fleet Management Product)** | January 2025 – Present
 - Designing the B2B digital fleet management experience for vehicle tracking, maintenance, and fleet operations, partnering with Product, Engineering, and stakeholders to improve operational efficiency and user experience.
 - Designed the Fleet Manager experience for assigning vehicles, managing drivers, and enabling drivers to schedule service appointments independently; **6 months** after launch, **24% of companies** had adopted the feature, with **440+ drivers** and **400+ assignments** created in the platform.
 - Supported the integration of non-connected vehicles into the product.
- **Geopolitical Risk Analysis Product** | January 2023 – December 2024
 - Designed software used by internal buyers and risk analysts to assess geopolitical supply-chain risks, support mitigation planning, and visualize relevant data.
 - Collaborated closely with Product Designers and Product Managers to share responsibilities, exchange knowledge, and support product delivery. Also partnered with developers to analyze data and create accurate visualizations for the prototypes.
 - Planned and conducted ongoing user research, including interviews and usability validations, to gather insights and inform design decisions.
 - Facilitated ideation workshops with the team, translated concepts into sketches, and designed high-fidelity prototypes. Also, organized and facilitated stakeholder workshops to align on roadmap priorities.

Product Designer @ Indie Campers

Lisbon, Portugal 🇵🇹 November 2019 – November 2021

- Redesigned the website booking funnel, including the homepage and vehicle listing page, **resulting in a 23% reduction in CS tickets** through collaboration with Product Managers, Developers, and Marketing Analysts.
- Designed landing pages for new products and supported the implementation of a digital booking check-in system.
- Created prototypes and interfaces informed by Google Analytics insights and A/B testing results.
- Contributed to front-end development using HTML, CSS, and Vue.js.
- Collaborated with other Product Designers to define user flows and visual identity for the Indie Campers Marketplace, a platform that allowed private hosts to list their vehicles on the website.

Product Designer @ ACE English Malta

St Julian's, Malta 🇲🇹 June 2018 – November 2019

- Led the redesign of the company website to reduce sales team time spent answering basic inquiries and increase direct bookings without impacting bookings via agencies, including **28% more direct bookings**, **20% more new users**, **30% more new sessions**, and **150%+ more “Get a quote”** page access.
- Designed and implemented an internal system for the education team, streamlining internal workflows and **reducing manual work from 5-6 hours to less than 30 minutes**.

UX Engineer @ In Loco

Recife, Brazil 🇧🇷 January 2017 – January 2018

- Worked on the Ads Innovation team, focused on improving mobile ad experiences, as a generalist role, moving between design and development tasks to turn concepts into working solutions. Shared responsibilities with another UX/UI Designer across ideation, low- and high-fidelity prototyping, proof of concepts, and implementation.

Previous Experiences

EDUCATION

Digital Experience Design - Postgraduate course

Fine Arts – University of Lisbon

Lisbon, Portugal 🇵🇹 June 2021

Computer Science - Bachelor’s Degree

Federal University of Pernambuco

Recife, Brazil 🇧🇷 June 2017

Apple Developer Academy

Recife, Brazil 🇧🇷 March 2016

PRESENTATION

Designing great data visualizations through stakeholder partnerships

Volkswagen Digital Solutions Summit

Lisbon, Portugal 🇵🇹 May 2024

Presented the year-long design process behind a data visualization product developed in close collaboration with users and stakeholders. Used domain knowledge of the procurement environment within the VW Group to help the team translate research findings into robust design solutions. Contributed to data visualizations that support the daily work of Risk Analysts, one of the product’s primary personas.

UX + Mobile ads: Learnings from creating experiences in mobile ads

Interaction South America

Florianopolis, Brazil 🇧🇷 November 2017

The Developers Conference

Porto Alegre, Brazil 🇧🇷 October 2017

Co-presented two talks with a colleague on applying user-centered design methods to mobile ad experiences. Shared practical insights and learnings from the design process at The Developer’s Conference and Interaction South America, two major interaction design events in Latin America.
